Re: Letter of Support

Dear Ms. Wagner and Ms. DiFelicianantonio,

The International Tibet Network is delighted to write this Letter of Support of your film, *Seeking Refuge*. This documentary on torture survivors is particularly pertinent to Tibet and its people.

As I write this, many Tibetans languish in Chinese prison cells and are being tortured for demanding basic freedoms. Even after their release, former political prisoners are systematically discriminated against to deter others from raising their voices in protest. There are only a few Tibetans who are able to escape to other countries and we believe that providing necessary support for them and documenting their stories is vitally important.

We want to extend our appreciation and support for this important project of Ms. Wagner and Ms. DiFelicianantonio at Naked Eye Productions. We look forward to seeing the final product soon.

Sincerely,
